

# Jamia Al Hudaa Students are SMART!

- S**afe- keep your email, address, phone number and school to yourself: don't share them online!
- M**eeet- never meet people who you have met online without a parent or carer. Online friends are strangers!
- A**cccepting- don't accept files, emails, messages or photos from places/people you don't know as they could harm you or the computer.
- R**eliable- remember not all the information on the internet may be true and people could lie about who they are. It's best to check information with someone who knows and to only chat with your real world friends and family.
- T**ell- if you are seeing something that makes you feel uncomfortable or you are being bullied. Make sure you tell an adult you trust. You can also contact Childline 0800 1111 [www.childline.org.uk](http://www.childline.org.uk) if you don't want to tell someone at home or school.

If you wouldn't say it to someone's face don't say it online.

Think before posting comments online!
